

# Heart Happy Hexaflexagon Card

These are easy to make once you've made your first one you'll want to make lots more. They are easy enough to teach in groups and will have everyone in amazement.

- Cut 2 strips of card 3" x 12"

On the 2 strips, mark with a pencil along the bottom at:

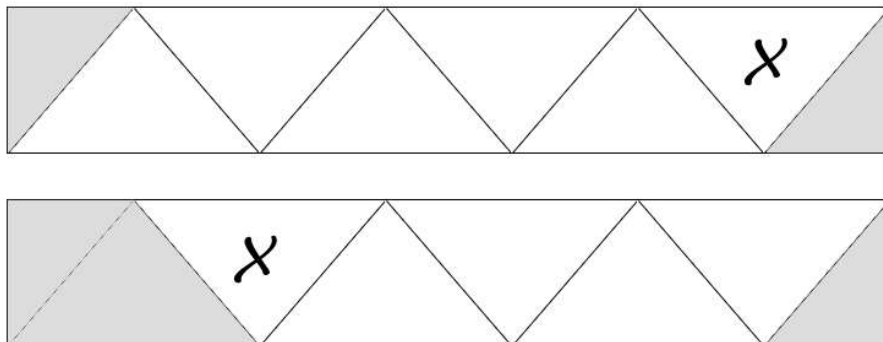

3.5, 7, 10.5

On the top mark with a pencil at:

1.75, 5.25, 8.75, 12

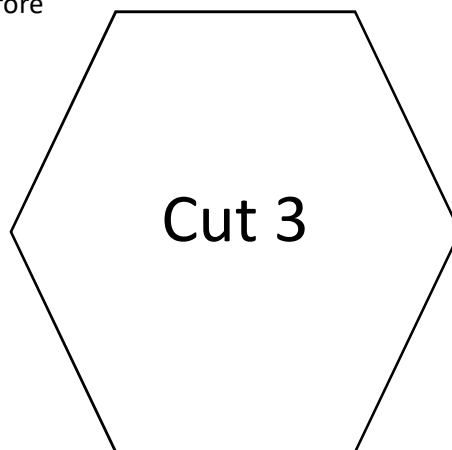

Join the marks with a score line to create triangles.

Discard the end pieces and attach the 2 pieces marked with an X to form a long strip made up of 10 scored triangles.

- Cut 3 hexagonal shapes with 3.5" sides (each triangle will be 3.5")

Decorate the hexagonal before cutting in to triangles
